

BestLine Premium Synthetic

SEA-SPRAY

MARINE PENETRATING LUBRICANT

#1 ENEMY OF MARINE CORROSION - #1 in LUBRICATION & PROTECTION!

ALSO See Bestline Engine Oil & Diesel/Gasoline Fuel Treatments, Power Train/Hydraulic Fluids

- 1. Latest Generation product in corrosion coating protection and lubrication**
 - Result of more than 25 years tribology research; National and International patents.
- 2. Tested by Independent Laboratories:**
 - South West Research Institute (<http://www.swri.org>) and Intertek Automotive Research (<http://www.intertek.com>); both labs in San Antonio, TX
 - Tested to requirements of American Society of Testing & Materials (ASTM)
- 3. Uses Micro Lubrication Technology (MLT)**
 - **Most Advanced Penetrating Lubricant on Market for Extreme Marine Conditions**
 - Blend of Group III base oil and Group IV Poly Alpha Olefin (PAO) oil to create proprietary patented synthetic base for all BestLine products (engine oil, transmission/hydraulic, fuel additives, penetrants)
 - Specially reformulated BestLine Sea Spray from original product for greater durability in marine environment to clean, lubricate and inhibit corrosion from salt moisture and air.
 - **Protects steel samples (no corrosion) after 100 hours of accelerated salt spray testing (see report)**
- 4. BENEFITS:**
 - Penetrates rust and corrosion quickly
 - Lubricates as it penetrates
 - Loosens and protects sticky mechanisms
 - Displaces moisture and protects metals from corrosion
 - Protects, cleans and retards electrical corrosion; High dielectric strength.
 - Protects steel, galvanized steel, wood and other materials from salt spray and salt water immersion; Paintable with enamel and solvent/mineral thinner based coatings.

5. MARINE APPLICATIONS & POTENTIAL USERS

- Rusted Bolts/Nuts, components, steel and galvanized steel structures.
- Rigging, shackle, turnbuckle thread lubrication, hose/pipe connectors, davits, pins.
- Lubricates Anchor Chains, Rollers, Rails, Open Gears, Bearings, Pulleys, Sliders.
- Inboard/outboard gas engines, distributors/ignitions, heavy duty marine diesels.
- Winch and steel wire cable/rope protection.
- Batteries and electrical terminals, breakers and connectors- solar, wind turbines.
- Owners/Fleet Operators: power boats, dinghies, sailboats, ferries, tugs, ships, vessels
- Marinas, Ports and dock side equipment; Marine Equipment, Maintenance & Repair Shops

6. Green Product:

- **BestLine Base oil** – High viscosity Index Environmentally friendly Low Volatility Superior Oxidation resistance High thermal Stability Excellent Low temperature Fluidity Low Toxicity

7. Material Safety Data Sheet: [MSDS/SDS Penetrating Lubricants 160712.pdf](#)

8. Product: SEA-SPRAY ALL PURPOSE MARINE LUBRICANT PENETRANT-

Available in: 6 oz/170g aerosol, 8 oz/236ml pump, 0.5 gal, 1 gal/3.78L, 5 gal/20L, 55 gal/208L

Canadian Distributor: CDP Technologies, 33231 Smith Ave, Mission, BC, V4S 1L6
