

MLT 101 PENETRATING LUBRICANT

#1 ENEMY OF RUST & CORROSION - #1 in LUBRICATION!

1. Latest Generation product

- Result of more than 25 years tribology research; National and International patents.

2. Tested by Independent Laboratories:

- South West Research Institute (<http://www.swri.org>) and Intertek Automotive Research (<http://www.intertek.com>); both labs in San Antonio, TX
- Tested to Requirements of American Society of Testing & Materials (ASTM)

3. Uses Micro Lubrication Technology (MLT):

- **Most Advanced Penetrating Lubricant on Market for Extreme Conditions**
- Formulated from blend of Group III base oil and Group IV Poly Alpha Olefin (PAO)
- **Unique product that cleans, lubricates, inhibits corrosion from moisture and air.**

4. BENEFITS:

- Penetrates rust and corrosion quickly.
- Lubricates as it penetrates.
- Loosens sticky mechanisms.
- Displaces moisture and lasts; reduces corrosion from oxidation and moisture.
- Cleans and retards electrical corrosion; high dielectric strength.
- Treats and maintains metal cutting edges; lubricates/cooling cutting tools
- 1001 Uses as Lubricating Penetrant

5. APPLICATIONS

- Industrial Applications: Automotive Garages, Trucking, Manufacturing, Heavy Equipment Repair
- Chains, Open Gears, Rollers, Sliders, Saw blades, Chain Saws
- Equipment/Machine Shops
- Drilling, Tapping, Machining, Cleaning, Cooling
- Electric and Air Tools; Electrical Contacts, battery terminals
- Rusted Bolts and Components
- Home jobs

6. Green Product:

- **BestLine Base oil** – High viscosity Index Environmentally friendly Low Volatility Superior Oxidation resistance High thermal Stability Excellent Low temperature Fluidity Low Toxicity

7. Material Safety Data Sheet: [MSDS/SDS Penetrating Lubricants 160712.pdf](#)

8. Product: INDUSTRIAL MLT101 PENETRATING LUBRICANT-

Available in: 6 oz/170g aerosol, 1/2 gal/3.78L, 5 gal/20L, 55 gal/208L
